Advanced Ethernet Fabric Administrator

Course Code: CEFP 300-WBT

BROCADE UNIVERSITY

Brocade
Certified Ethernet
Fabric Professional

ENROLL NOW

DURATION:

12 hours

PREREQUISITES:

- CEF 200 Brocade Ethernet Fabric Certification Training
- CNE 200 Brocade Certified Network Engineer Training
- BNA 200 Brocade Network Advisor v11.x Training

AUDIENCE:

This course is designed for network architects, designers and administrators, system administrators and engineers, professional services personnel, technical sales engineers, and support personnel, including anyone requiring the foundational information needed to install, configure, maintain, and troubleshoot Brocade Ethernet Fabrics and VDX switches.

DESCRIPTION:

This self-paced, web-based course covers Brocade VDX Hardware, Brocade Network Advisor v11.3 features with respect to VDX switches, VCS™ Fabrics, and Brocade Network OS (BNOS) v3.0.0. The course includes Ethernet Layer 3 fabric features, Layer 2, and FCoE features that are not covered in the CEF 200 course. Students will follow along with narrated lab demonstrations. This course is designed in part, to prepare students for the 150-810 BCEFP exam.

OBJECTIVES:

Upon successful completion of this course, the student should be able to:

- Identify Brocade VDX and VCS™ Fabric hardware.
- Understand VCS™ Fabric product positioning and use cases.
- Describe VCS™ Fabric Layer 3 features and routing functionally.
- Discuss both NOS v3.0.0 Layer 2, and FCoE enhancements.
- Describe Brocade Network Advisor v11.3 features with respect to VDX switches and VCS™ Fabrics.
