Brocade Certified Layer 4-7 Professional (BCLP) 2010 Knowledge Assessment (CLP 101-WBT)

Web-Based Training (eStudy)

BROCADE EDUCATION SOLUTIONS

Brocade Certified Layer 4-7 Professional

DURATION:
1 hour

FORMAT:
Self-paced knowledge assessment

PREREQUISITES:
- CLE 202: ADX Introduction to Application Switching and Load Balancing
- CLP 240: ADX Advanced Techniques in Server Load Balancing

AUDIENCE:
Any technical professional wanting to gauge his/her knowledge of BCLP topics. This course is also for those who are preparing to take the BCLP Certification Exam.

DESCRIPTION:
This self-paced, web-based training course (eStudy) is designed to check a student's knowledge and skills against sample questions covering some of the scope of the Brocade® Certified Layer 4-7 Professional (BCLP) Exam 150-420. Learners will see multiple choice and multiple answer questions which mimic the look and feel of the actual BCLP exam. This assessment will also help illustrate what students know, what they don't know, and where each learner needs to spend more time studying to pass the BCLP exam.

The assessment covers the broad spectrum of topics that fall into the realm of the actual exam. Just like the real exam, the topics will not be presented in any particular order. These questions are for the sole purpose of study and review, and in no way reflect specific test content.

OBJECTIVES:
Upon successful completion of this course, the student should be able to:
- Gauge their level of knowledge about BCLP topics.
- Refresh themselves on the knowledge and skills needed to design, configure, administer and troubleshoot complex implementations of Brocade Layer 4-7 application delivery solutions.
