Introduction to Brocade DCX Backbones and Directors
(DCX 120)

BROCADE EDUCATION SOLUTIONS

DESCRIPTION:

This training course provides an overview of Brocade Backbone and Director hardware products and features.

This course is available on-line with a live instructor (virtual classroom), or as self-paced, web-based training.

PREREQUISITES:

- FC 101 (Introduction to Fibre Channel Concepts)
- 4-6 months experience on related Brocade products

AUDIENCE:

IT professionals who are interested in learning high-level information about Brocade DCX Backbones and Directors.

OBJECTIVES:

Upon successful completion of this course, students should be able to:

- Identify the Brocade family of Backbones and Directors:
  - Backbones: Brocade DCX and DCX-4S
  - Directors: Brocade 48000
- Introduce the full range of Backbone and Director blades:
  - CP and Core blades
  - Port blades
  - CEE/FCoE, Extension/Routing, and specialty blades
- Describe the Backbone and Director hardware features and functionality
- Discuss the features and functionality of Inter-Chassis Links (ICLs)

DELIVERY OPTIONS:

The DCX 120 course is available in two versions:

- **DCX 120-VCT**: 4 hours of virtual classroom training.
- **DCX 120-WBT**: 2 hours of web-based training.

Brocade Education Solutions provides you with several options to attend this training:

- **Virtual classroom** courses, taught by an instructor in an on-line environment
- **Web-based** training courses that are self-paced and studied on-line
