Introduction to Brocade FCoE Products
(FCoE 110)

BROCADE EDUCATION SOLUTIONS

DESCRIPTION:

This training course provides the technical and process information needed to implement, deploy, manage, and troubleshoot Brocade Fibre Channel over Ethernet (FCoE) products.

This course is available on-line with a live instructor (virtual classroom), or as self-paced, web-based training.

PREREQUISITES:

- Introduction to Fibre Channel Concepts (FC 101), or equivalent knowledge of Fibre Channel concepts
- Introduction to Fibre Channel over Ethernet (FCoE 101), or equivalent knowledge of Fibre Channel over Ethernet Products

AUDIENCE:

This course is for Brocade SEs, OEM SEs, and support engineers responsible for implementing and supporting Brocade FCoE products.

OBJECTIVES:

Upon successful completion of this course, students should be able to:

- Define the Brocade FCoE implementation including hardware and software features.
- Describe business reasons for implementing FCoE.
- Describe Brocade FCoE products including Brocade 8000, Brocade FCOE10-24, CNA 1110 & 1120, and features & functions that support FCoE.
- Describe product and service information for the Brocade 8000 switch and the FCOE10-24 blade.
- Describe the management interfaces, such as Ethernet port, Management Console, CLI, and Web Tools and the methods to access each for the Brocade 8000 and Brocade FCOE10-24 blade.

DELIVERY OPTIONS:

The FCoE 110 course is available in two versions:

- **FCoE 110-VCT**: 2 hours of virtual classroom training.
- **FCoE 110-WBT**: 1.5 hours of web-based training.

Brocade Education Solutions provides you with several options to attend this training:

- **Virtual classroom** courses, taught by an instructor in an on-line environment
- **Web-based** training courses that are self-paced and studied on-line
