Brocade Campus Essentials

Course Code: FI 200-WBT

BROCADE UNIVERSITY

DESCRIPTION:

This self-paced, web-based training course with lab demonstrations is an in-depth study of the Brocade FastIron family of products, and how they are utilized in the Campus environment. It focuses on the hardware and software architecture, software upgrade process, and major features of the FastIron series.

OBJECTIVES:

Upon successful completion of this course, students should be able to:

- List the various components of FastIron SX chassis products.
- Discuss configurations of FastIron FCX and ICX switches.
- Compare the major features and functions of the FastIron family, including POE and Stacking.
- Describe the software upgrade process for chassis-based and fixed-configuration products.
- Utilize system diagnostic tools on FastIron products.

ENROLL NOW

DURATION:

Approximately 12 hours of web-based training

PREREQUISITES:

- Prior releases of Brocade IP networking products.
- Content covered in *Basic Switch/Router Configuration and Management* (*CNE 200*).

AUDIENCE:

This course is for customers, resellers, network technicians, network administrators, network support staff, or anyone else that configures and maintains FastIron products.
