Brocade 16 Gbps Fibre Channel Product Training
(SAN 140-WBT)

Web-Based Training

GLOBAL EDUCATION SERVICES

DESCRIPTION:

This course provides the technical and process information needed to provide on-site FRU maintenance and Level 1 Support of Brocade 16 Gbps Fibre Channel switches and Directors, including basic troubleshooting and information capturing to assist remote support personnel in the performance of problem determination activities.

OBJECTIVES:

Upon successful completion of this course, the student should be able to:

- Describe functional features, front and rear views, port numbering, optics, and cables for the following Brocade 16 Gbps Fibre Channel switches and Directors:
  - Brocade DCX 8510-4
  - Brocade DCX 8510-8
  - Brocade 6510
- Identify and replace Field Replaceable Units (FRUs) for all Brocade 16 Gbps Fibre Channel switches and Directors.
- Manage firmware changes for all Brocade 16 Gbps Fibre Channel switches and Directors.

DURATION:

6 hours

FORMAT:

Self-paced, web-based training

PREREQUISITES:

- Introduction to Fibre Channel Concepts (FC 101)
- Basic familiarity with Brocade SAN features

AUDIENCE:

This course is for Service personnel who support multiple products in customer accounts where Brocade 16 Gbps Fibre Channel switches and Directors are deployed. Therefore, it is assumed that this training will be the initial training for the Service personnel and may be the only training they receive on this product.
