# Introduction to the Brocade VDX Products
(VDX 110)

BROCADE EDUCATION SOLUTIONS

## DESCRIPTION:

This training course provides an overview of the Brocade VDX products. Included in this training is the technical and process information needed to provide on-site FRU maintenance and Level 1 Support of the Brocade VDX platforms, including basic troubleshooting and information capturing to assist remote support personnel in the performance of problem determination activities.

This course is available on-line with a live instructor (virtual classroom), or as self-paced, web-based training.

## OBJECTIVES:

Upon successful completion of this course, students should be able to:

- Define the Brocade VDX implementation, including hardware and software features.
- Discuss the Brocade VDX products.
- Describe product and service information for the Brocade VDX versions.
- Perform basic health monitoring and other maintenance operations, including firmware installation and upgrades.

## DELIVERY OPTIONS:

The VDX 110 course is available in two versions:

- **VDX 110-VCT**: 2 hours of virtual classroom training.
- **VDX 110-WBT**: 2 hour s of web-based training.

Brocade Education Solutions provides you with several options to attend this training:

- **Virtual classroom** courses, taught by an instructor in an on-line environment
- **Web-based** training courses that are self-paced and studied on-line

## PREREQUISITES:

Working knowledge of:

- Basic IP networking concepts
- VCS 101 or equivalent Virtual Cluster Switching (VCS) knowledge

## AUDIENCE:

This course is for Brocade SEs, OEM SEs, and support engineers responsible for implementing and supporting Brocade VDX products.
