

BROCADE NETWORK SUBSCRIPTION

Drive Business Forward

It's time to subscribe to a future that you define on-demand with unlimited scalability, unlimited upgradability, and total freedom from term commitments and depreciation cycles.

Brocade® Network Subscription enables IT managers to quickly implement network solutions today, knowing they can adjust the network to meet the ever-changing needs of tomorrow.

Increase Capital Efficiency

With Brocade Network Subscription, you can easily refresh your network infrastructure or add capacity—without the need for capital expenditure.

Invest in scaling your business instead of your network infrastructure.

Obtain Pay-As-You-Go Flexibility

Brocade Network Subscription has no origination fees, no fixed term, and no penalties for early termination, eliminating the need for separate support contracts.

Pay for network capacity as you consume it—keeping a clear track of expenses, increasing your financial flexibility, and reducing the risk of overspending.

Enable Complete Business Agility

Brocade helps you easily address your information technology requirements by offering flexible network acquisition and support alternatives to meet your financial needs.

Create a solution with a specific level of network capacity, bandwidth, and performance that is suited to your business.

Eliminate Business Risk

Brocade Network Subscription enables you to acquire industry-leading network infrastructure and to expand, contract, or refresh it as your business changes.

Minimize security and obsolescence risks with proven enterprise-class technology that is deployed in over 90 percent of Global 1000 data centers.

Gain Direct Support

Brocade is always close at hand, from the moment you deploy the networking technology.

The Brocade support service offers secure remote access, 24/7 phone support, around-the-clock online support, and next-day advanced hardware replacement—so we will be there when you need us.

Brocade Network Subscription Benefits

- Aligns IT network infrastructure capacity and project costs with network demand and benefits
- Offers complete flexibility for IT upgrades for total obsolescence protection
- Eliminates the risk of adopting new technologies, projects, and services
- Frees up capital for investment in other areas or projects
- Provides organizations with fiscal certainty to effectively project and manage cash flow
