

# EXECUTE TODAY TO PREPARE FOR TOMORROW: BROCADE NETWORK SUBSCRIPTION

## Design Your Network Future with Brocade Network Subscription

Unified Communications has grown exponentially over the last few years. With pay-as-you-go flexibility, you can:

- Align your IT network infrastructure capacity and project costs with network demand and benefits
- Upgrade at any time to keep pace with front-end technology
- Expand or contract IT resources on-demand
- Eliminate the potential risks of adopting new technologies, projects, and services

## Define Your Future with On-Demand Network Acquisition

A Lync network infrastructure needs to be simple, flexible, fast, highly available, and scalable. Brocade Network Subscription enables automated, efficient, and elastic networking solutions that scale rapidly without sacrificing return on investment to facilitate the deployment of Lync on-premise and hosted environments.

Brocade is here to share the risk and the reward of defining, acquiring, and managing a network with an acquisition model that is as flexible as you need it to be.

With Brocade Network Subscription you acquire exactly:

- What you want
- Where you want
- When you want

## Brocade Network Subscription

Brocade Network Subscription is a flexible, open-ended network acquisition and direct support model that gives organizations the power to align network capacity to their changing business needs with minimal risk and no capital investment. Including Brocade IP equipment and support services, Brocade Network Subscription allows organizations to provision for anticipated demand—enabling cloud-optimized networking with minimal risk.

## Drive UC Initiatives in One Direction: Forward

“IT infrastructure” and “change” have become synonymous terms. Brocade Network Subscription allows IT managers to quickly identify network solutions today to accommodate ever-changing needs.

Don't limit your network future by signing up for term commitments that lack the flexibility to adapt on-demand.

Design and redesign your network on your terms with Brocade Network Subscription.
