Dear Brocade Customer,

This letter is to notify you that Brocade is initiating the End of Life (EOL) process for the Brocade® FastIron SX First and Second Generation interface modules, as well as POE upgrade module. Brocade provides this notification to assist your planning for last time purchases of this product.

The recommended replacements are the Third Generation interface modules (see the table below). If you have questions about our products please contact your account representative for information.

Our goal is to ensure a smooth transition. To assist in the transition to our new products, please note the following so that you may plan accordingly.

Brocade FastIron SX First and Second Generation interface modules]:

- EOL notification date July 9, 2013
- Last Time Order (LTO) final, non-cancelable, non-returnable order due date (subject to lead time and availability) November 9, 2013
- Last Customer Ship (LCS) date January 9, 2014
- End of Support (EOS) date January 9, 2019

Note: Last Supported software releases for this product are 7.3.00 and 7.4.00 for First Generation modules, 7.3.00, 7.4.00 and 8.0.00 for Second Generation modules, subject to change in the future.

Support Pricing

Support contracts are associated with the chassis in which the modules are installed. Support pricing for the chassis is not impacted by this EOL. Support for the EOL modules will end on the End of Support date, regardless of support status of the chassis beyond the End of Support date for the affected modules.

Subject to the provisions of your support agreement with Brocade, support and access to software for the product will be available through Brocade's 7x24 Technical Assistance Center (TAC) or on-line via the Brocade MySupport portal.*

Sincerely,
BROCADE

**Additional restrictions and limitations apply to support for software and such support may be cancelled or changed without notice. Contact your sales representative for more information.*
