

Brocade: The Making of an NFV Innovation Leader

Voted by IT Pros

100 MILLION More than 100,000,000 hours of production run time with NFV

Brocade
Contributions to NFV Applications for Software-Defined Data Centers 2011 - 2015

IT innovation is the development of solutions that solve problems in new ways. For 2015-2016, IT professionals selected Brocade as the company that contributed most to innovation in NFV applications over the last 5 years. Voting by IT pros indicates clear recognition of the pioneering product and market development work done by Brocade over that time--an impressive result considering Brocade was selected from a field of leading SDN and NFV innovators including Alcatel-Lucent, Cisco, F5, HP, Riverbed, and VMware.
