

## CHANGING THE WAY DATA CENTERS WORK

By 2015, over half of all IT capital budgets will be spent on the cloud.

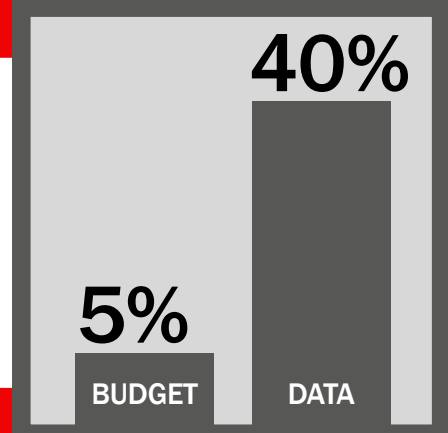

By 2020, the Internet will be home to over 30 billion

connected things Gartner

By 2016, 3 in 4 businesses will lose market share if they're not ready for cloud, mobile, and social technologies. Gartner

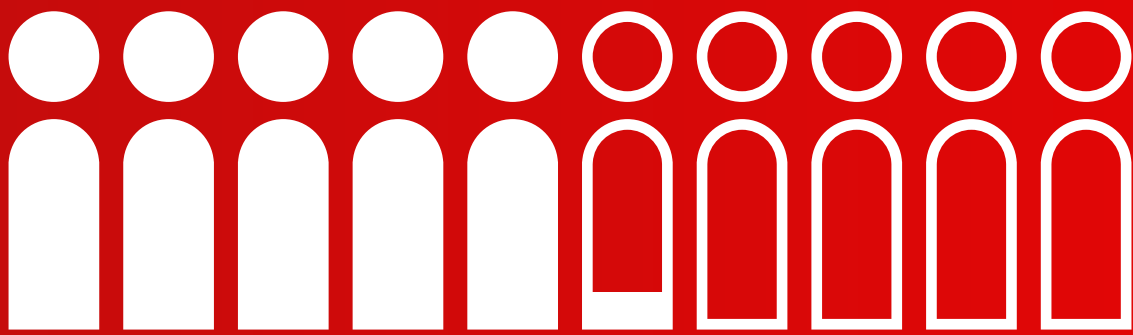

Data is growing by 40% a year. But IT spending is only growing by 5%. McKinsey

52% of network leaders think SDN will simplify virtual network management. Brocade Survey

By 2016, SDN will be worth \$3.7 billion... 35% of all data center Ethernet switches. IDC

By 2017, an extra 91 million people will browse the Web using mobile devices (and 15 million fewer will use PCs). IDC

# THE AGE OF FABRICS

If you laid all deployed Brocade VDX switches end-to-end, they'd stretch over 30,000 feet—similar to the cruising altitude of a Boeing 747.

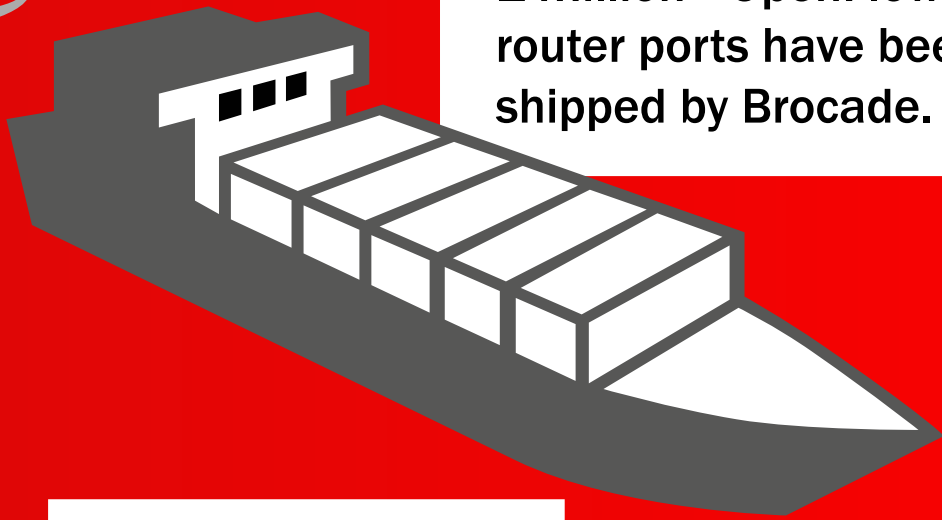

Brocade is the world's No. 1 SAN provider.

Over 1,400 customers worldwide have chosen Brocade Ethernet fabrics ...more than 450,000 ports!

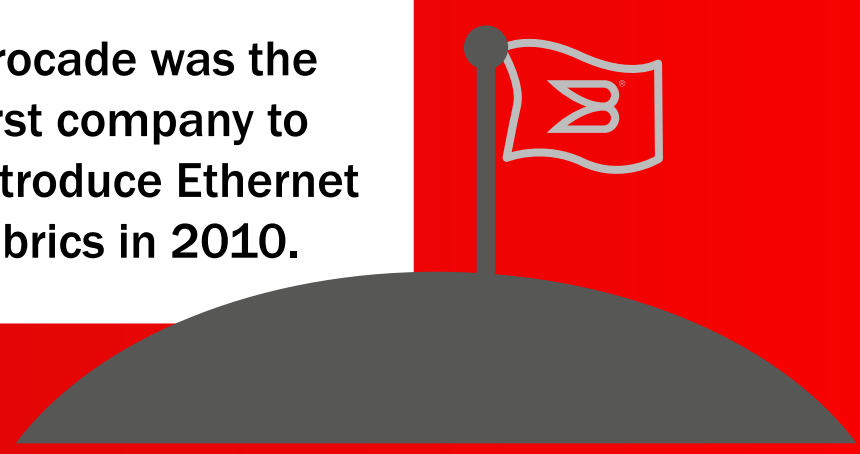

More than 9 in 10 Global 1000 companies rely on Brocade data center solutions.

1 million+ OpenFlow router ports have been shipped by Brocade.

With over 1.3 million downloads, the Brocade Vyatta vRouter is the world's most popular virtual router.

Brocade was the first company to introduce Ethernet fabrics in 2010.
