

Brocade Certified Service Provider Network Engineer Knowledge Assessment (CSPNE 101-WBT) Web-Based Training

BROCADE UNIVERSITY

DESCRIPTION:

This self-paced, web-based training course (eStudy) is designed to check a student's knowledge and skills against sample questions covering some of the scope of the Brocade Certified Service Provider Network Engineer (BCSPNE) Exam 150-710. Learners will see multiple choice and multiple answer questions which mimic the look and feel of the actual BCSPNE exam. This assessment will also help illustrate what students know, what they don't know, and where each learner needs to spend more time studying to pass the BCSPNE exam.

The assessment covers the broad spectrum of topics that fall into the realm of the actual exam. Just like the real exam, the topics will not be presented in any particular order. These questions are for the sole purpose of study and review, and in no way reflect specific test content.

OBJECTIVES:

Upon successful completion of this assessment, the student should be able to:

- Gauge their level of knowledge about BCSPNE topics
- Demonstrate important knowledge, skills, and abilities necessary to install, configure, manage, and troubleshoot Ethernet switching and IP routing (Layer 2/3) for service provider networks based on Brocade products

DURATION:

1 hour

FORMAT:

Self-paced knowledge assessment

PREREQUISITES:

- *Brocade Certified Network Engineer Training (CNE 200)*
- *Brocade Certified Network Professional Training (CNP 300)*
- *MPLS Implementation Training (ETH 640)*
- *Border Gateway Protocol Training (BGP 400)*
- *NetIron Software Update Training (NI 110)*

AUDIENCE:

Any technical professional wanting to gauge his/her knowledge of BCSPNE topics. This course is also for those who are preparing to take the BCSPNE Certification Exam.
