

Introduction to Fibre Channel over Ethernet (FCoE 101)

BROCADE EDUCATION SOLUTIONS

DESCRIPTION:

This course provides an introduction to Fibre Channel over Ethernet (FCoE) theory and fundamentals. This is a baseline course for all FCoE-based Brocade products and is designed to provide a solid FCoE base for everyone.

This course is available online with a live instructor (virtual classroom), or as self-paced, web-based training.

OBJECTIVES:

Upon successful completion of this course, students should be able to:

- Provide a technology overview for specific conventional Ethernet topics.
- Provide a technology overview of Converged Enhanced Ethernet (CEE).
- Provide a technology overview of Fibre Channel over Ethernet (FCoE) and FCoE Initialization Protocol.

DELIVERY OPTIONS:

The FCoE 101 course is available in two versions:

- **FCoE 101-VCT:** 4 hours of virtual classroom training.
- **FCoE 101-WBT:** 3 hours of web-based training.

Brocade Education Solutions provides you with several options to attend this training:

- **Virtual classroom** courses, taught by an instructor in an online environment
- **Web-based** training courses that are self-paced and studied online

PREREQUISITES:

Before taking this course, learners should be familiar with the basic concepts and/or operation of:

- FC Storage administration
- Fibre Channel switches
- Conventional Ethernet

AUDIENCE:

This course is for all personnel responsible for designing, implementing, managing, and maintaining FCoE solutions.
